

End-User License Agreement for GDM Solutions, Inc. Software.

Important - Read Carefully.

This End-User License Agreement ("EULA") is a legal agreement between you ("**Licensee**", either an individual or a single entity) and GDM Solutions, Inc. ("**Vendor**", also known as "GDM"). You agree to be bound by the terms of this agreement by installing, copying, or using the Software. If you do not agree, do not install, copy, or use the Software; you may return the unused Software within 7 days of receipt to your Vendor Representative for a refund if applicable.

License Grant. Vendor grants Licensee a personal, non-exclusive license to use the Software on a single computer/device. If Software License was purchased from Vendor or Vendor Representative as an upgrade for a previous software version, licenses for all previous software versions are considered as expired and not supported.

A license purchased by a parent company may be used by a subsidiary of that parent company.

Network Use. Vendor does not support installing Software on network storage device. Any install must follow the Vendor license agreement regarding number of Licensees using Software.

Otherwise, a single Software package may not be loaded on multiple computers or computer servers, or used in multiple locations. Vendor may include mechanisms to limit multiple use of a single Software package.

License Grant for Study Definitions. The Software includes study definitions (templates) that are created by Vendor. These study definitions include but are not limited to those customization files with file extensions of .def, .def8, .frm, .frm8, .frc, .frc8, .ini, .ini8, .tbl, .tbl8, .acddb, and .mdb. You may not copy or modify the study definitions included with the Software.

Documentation. All documentation is for internal, non-commercial reference purposes only.

No Rental/Commercial Hosting. You may not rent, lease, lend or provide commercial hosting services with the Software.

License Fee and Taxes. For the license granted herein, Licensee agrees to pay Vendor's license fee which shall be due prior to delivery of the Software. In addition, Licensee shall pay to Vendor the amount of any sales tax, or similar tax which Vendor may be required to pay in connection with this Agreement. Licensee is required to pay any use tax or VAT tax directly to the appropriate government entity.

For Licenses that are not included in a corporate maintenance contract with Vendor:

Annual Maintenance Subscription. Every new or upgraded Software License includes a pre-paid 12-month subscription term that entitles Licensee to:

- Use Software License for the pre-paid 12-month subscription term that is included with each License purchase or upgrade. License term commences on the date when Vendor or Vendor Representative created the License invoice that was paid by Licensee.
- Receive free support from their local Vendor Representative for questions or problems that are conveyed to Vendor Representative by telephone or email.

Renewal of Annual Maintenance Subscription.

Licensee will be notified of any upcoming annual maintenance subscription expiration beginning approximately three (3) months before expiration date. The notification occurs when starting Software or running the GDM Check for Updates program. The Vendor or Vendor Representative may also deliver by email an invoice for maintenance subscription renewal. Renewal shall only occur upon the mutual written agreement of the parties (including via a processed purchase order or signed amendment). This Agreement does not renew automatically.

Date Alignment. Purchase date listed on the original Software new or upgrade invoice defines month and day of license subscription expiration. All paid subscription renewals are aligned to end of the expiring subscription, regardless of when the renewal invoice was paid. This ensures fairness for any Licensees who renew before or after expiration date of their previous maintenance subscription.

Unpaid maintenance subscription renewals begin from the previous maintenance expiration date. When the previous maintenance expiration date is more than one year ago, maintenance must be paid for every year since the date when Software subscription was last active.

Prorated Renewals to Synchronize Renewal Date. If clients purchase multiple Software Licenses at different times, they may wish to have one subscription end date for all Licenses. Contact Vendor or Vendor Representative to group multiple Licenses into one invoice. The renewal cost of newer licenses will be prorated to match the oldest purchased License.

Upgrade. If Software is an upgraded Vendor product, Licensee may use this upgrade product only in accordance with this license. After upgrading you may no longer use the original Software that formed the basis for your upgrade.

Export Restrictions. You acknowledge that the Software is subject to US export jurisdiction. You agree to comply with all applicable international and national laws that apply to the Software, including the US Export Administration Regulations, as well as end-user, end-use, and destination restrictions issued by US and other governments.

Restrictions on Use. You shall use the Software strictly in accordance with the terms of this Agreement and shall not: (a) decompile, reverse engineer, disassemble, attempt to derive the source code of, or decrypt the Application; (b) make any modification, adaptation, improvement, enhancement, translation or derivative work from the Application; (c) violate any applicable laws, rules or regulations in connection with Your access or use of the Application; (d) remove, alter or obscure any proprietary notice (including any notice of copyright or trademark) of Company or its affiliates, partners, suppliers or the licensors of the Application; (e) use the Application for any revenue generating endeavor, commercial enterprise, or other purpose for which it is not designed or intended; (f) [install, use or permit the Application to exist on more than one Device at a time or on any other device or computer]; (g) [distribute the Application to multiple Devices]; (h) make the Application available over a network or other environment permitting access or use by multiple Devices or users at the same time; (i) use the Software for creating a product, service or software that is, directly or indirectly, competitive with or in any way a substitute for any services, product or software offered by GDM; (j) use the Software to send automated queries to any website or to send any unsolicited commercial e-mail; or (k) use any proprietary information or interfaces of Company or other intellectual property of GDM in the design, development, manufacture, licensing or distribution of any applications, accessories or devices for use with the Software.

Separation of Components. The Software is licensed as a single product. Its components parts may not be separated for use on more than one device.

Software Transfer. Licensee may transfer Licensee's copy of the Software to a different computer/device. After the transfer, Licensee must completely remove the Software from the former computer/device.

Transfer to Third Party. If you are the person who initially licensed the Software, you may make a one-time permanent transfer of this Software and EULA, provided that you do not retain any copies of this Software and the recipient agrees to the terms of this License Agreement.

Termination. Without prejudice to any other rights, Vendor may terminate this EULA if you fail to comply with the terms and conditions of the EULA. In such event, you must destroy all copies of the Software and all of its component parts.

Copyright. The Software constitutes confidential and proprietary information of and is owned by Vendor and is protected by United States copyright laws and international treaty provisions. Licensee shall treat the

Software as any other copyrighted material, except Licensee may make one copy of the Software solely for archival or backup purposes, provided Licensee keeps the copy solely for backup or archival purposes. Licensee may not rent, lend, give, sell, make demonstration copies, trade or otherwise convey the Software package except as described above in "Transfer to Third Party". Licensee may not reverse engineer, decompile, or disassemble the Software.

Selection and Operation of Hardware. Licensee shall independently determine the appropriate hardware and other equipment to be used to operate the Software. Licensee shall have sole responsibility for use of the Software and shall insure that its personnel are adequately educated and trained in the proper use and operation of the Software. Licensee shall maintain backup data necessary to replace any data in the event of loss of or damage to data from any cause.

Limited Warranty. Vendor warrants for a period of ninety (90) days from the date of receipt of the Software to Licensee that the Software will conform substantially to the then current published functional specifications for the Software. Vendor agrees to use its best efforts to correct any errors causing significant deviations from the functional specifications as are reported by Licensee to Vendor during such ninety-day period. Vendor warrants that the media on which the Software is distributed to be free from defects in materials and workmanship under normal use for a period of ninety (90) days from the date of delivery to Licensee as evidenced by a copy of your receipt.

Limitation of Warranty. The Licensed Software provided hereunder is licensed "as is" without any warranties, either express or implied, including but not limited to any warranties of merchantability or fitness for a particular purpose, other than as expressly set forth above.

Limitation of Liability. Vendor assumes no liability for Licensee's use of the Software provided hereunder. In no event shall Vendor be liable to Licensee or third parties for loss of profits, special, indirect, incidental, direct, consequential or other similar damages even if Vendor was aware of the possibility of such damages.

In the event any remedy hereunder fails of its essential purpose, or in any other event, Vendor's liability hereunder shall not exceed the amount actually paid to Vendor by Licensee under this agreement.

Vendor does not warrant that the functions contained in the Software will meet Licensee's requirements or that the operation of the Software will be uninterrupted or error free.

Some states do not allow the exclusion or limitation of incidental and consequential damages, so the above limitation or exclusion may not apply to you as Licensee. For Licensees that are public universities or governmental entities, this section and any indemnification obligations shall apply only to the extent permitted by the laws and Constitution of the Licensee's home state, without waiving any sovereign immunity.

Customer Remedies. When Licensee reports any problems with the Software, Vendor has the option to fix and send changes to Licensee in the timeframe decided by Vendor.

Arbitration. Except as provided below for governmental entities, any controversy or claim, whether based on contract, statute, tort, fraud, misrepresentation or other legal theory, related directly or indirectly to this agreement, any contract or product, whenever licensed, and between Licensee and Vendor will be resolved by arbitration in accordance with the terms of this section. Vendor reserves the right to obtain an injunction in court to prevent Licensee's use of the Software in violation of this agreement. The rules of the American Arbitration Association will govern the arbitrability of all claims. The arbitration panel will consist of three people at least one of whom will be expert in data processing and at least one of whom will be an attorney with an expertise in computer law. For Licensees that are public universities or governmental entities: If Licensee is prohibited by law from entering into binding arbitration, this section shall not apply, and disputes shall be resolved in a court of competent jurisdiction.

Term. The Term of the license for the Software shall commence when Licensee has paid to Vendor the entire amount due hereunder and Vendor has shipped the Software to Licensee. License term shall continue until the first occurrence of one or more of the following events:

- Licensee no longer uses the Software.
- Licensee fails to pay annual maintenance that is required to continue using the Software.
- Vendor no longer supports the Licensee's installed Software version.

In addition, either party may terminate this Agreement upon written notice to the other in the event of a material breach by the other party, unless such breach is cured in full within thirty (30) days following written notice of the breach. Upon termination of the Agreement for any reason Licensee shall promptly return to Vendor the Software and any related documentation concerning the Software provided by Vendor to Licensee.

Reservation of Rights and Ownership. Vendor owns the title, copyright, and other intellectual property rights in the Software. Vendor reserves all rights not expressly granted to Licensee in the EULA. The Software is licensed, not sold, and does not grant any rights to trademarks or service marks of Vendor. The Software is protected by copyright and other intellectual property laws and treaties.

Applicable Law. This Agreement shall be governed and construed under the laws of the State of South Dakota. Notwithstanding the foregoing, if Licensee is a public university or governmental entity located in a state that requires by law that its contracts be governed by its own state laws, then the laws of the state where the Licensee is located shall apply. Should you have any questions concerning the Agreement, you may contact GDM Solutions, Inc. at PO Box 8452, Brookings, SD 57006-4605, USA.

Data Protection and Compliance.

Data Processing. To the extent that GDM processes any personal data (such as investigator names or emails) originating from the European Economic Area (EEA), the United Kingdom, or Switzerland on behalf of the Licensee for software licensing, reassignment, or invoicing purposes, the parties agree that GDM acts as a Data Processor. Such processing shall be governed by GDM's standard **Data Processing Addendum (DPA)**, which is incorporated herein by reference and available upon request or at https://gdmdata.com/media/documents/GDM-Solutions_DataProcessingAddendum.pdf.

Legal and Regulatory Retention. Notwithstanding any data deletion or erasure requests from the Licensee or individual data subjects, Licensee acknowledges and agrees that GDM is legally required to retain certain records—including financial transactions, invoices, licensing histories, and user identity logs—to comply with United States federal tax laws and **United States Export Control Regulations**. GDM shall not be required to delete any historical data where retention is mandated by applicable law or required for the defense of legal claims.

Archived and Backup Data. GDM shall not be obligated to forensically delete data from historical email communications, server logs, or secure disaster-recovery backups, provided that such data is kept secure and removed from active commercial use.

Entire Agreement. This Agreement is the entire agreement between the parties relating to the subject matter herein and supersedes all other oral and written proposals and representations.
